Abraham Lincoln: Vampire Hunter

Synopsis

Indiana, 1818. Moonlight falls through the dense woods that surround a one-room cabin, where a nine-year-old Abraham Lincoln kneels at his suffering mother's bedside. She's been stricken with something the old-timers call "Milk Sickness." "My baby boy..." she whispers before dying. Only later will the grieving Abe learn that his mother's fatal affliction was actually the work of a vampire. When the truth becomes known to young Lincoln, he writes in his journal, "henceforth my life shall be one of rigorous study and devotion. I shall become a master of mind and body. And this mastery shall have but one purpose..." Gifted with his legendary height, strength, and skill with an ax, Abe sets out on a path of vengeance that will lead him all the way to the White House. While Abraham Lincoln is widely lauded for saving a Union and freeing millions of slaves, his valiant fight against the forces of the undead has remained in the shadows for hundreds of years. That is, until Seth Grahame-Smith stumbled upon The Secret Journal of Abraham Lincoln, and became the first living person to lay eyes on it in more than 140 years. Using the journal as his guide and writing in the grand biographical style of Doris Kearns Goodwin and David McCullough, Seth has reconstructed the true life story of our greatest president for the first time—all while revealing the hidden history behind the Civil War and uncovering the role vampires played in the birth, growth, and near-death of our nation.

Seth Grahame-Smith's second innovative alternative history horror novel is simply going to bowl you

over and knock your socks off!! Abraham Lincoln Vampire Hunter is an adventure into the faux biographical journals of our 16th United States President, Abe Lincoln. Seth's unswaying and unnerving talent to create a totally believable world of blood thirsty vampires in the mid 19th century, will have the reader's head spinning with wonder and fright as Abe swings his axe to slay the devils of the South reaping revenge for the death of his dear mother. Presented in such an awe inspiring literary land of macabre, in addition to the cool photo edited sepia toned photographs that enhance the story's credibility, this book is a dynamite work of art. Not to be taken seriously in any shape or form other than Seth's talent to capture horror lovers and hold them spellbound from page one to the finish line, Abraham Lincoln Vampire Hunter is a winner. Told through Abe's journals that began as a child the night he saw his mother die from the heinous acts of monsters he only dreamed of, he vowed that evening to devote his life to the killing of every vampire on American soil. Becoming a trained and skillful hunter, taught surprisingly from an ancient vampire that becomes Abe's lifelong friend, mentor and champion, Abraham will now rid the United States of vampires who deserve to be put to death for their unnecessary taking of the lives of innocent children. Lincoln becomes obsessed with keeping his chopping axe sharp and spends many years on his own private murderous manhunt. Cleverly disguised Southern gentlemen in dark glasses and top hats, are harvesting Negro slaves to be corralled and bred for the pure purpose of quenching their thirst.

I read *Pride and Prejudice* and *Zombies* and had a few giggles, I however wasn't so impressed with that book, mainly because it seemed like Seth Grahame-Smith just tossed a few zombies and action into an otherwise flawless book. Maybe I was too bias, because I love the original so dearly. It is in my forever top 10. I'm on my 4th paperback version of *Pride and Prejudice* and I have it on Kindle too, just in case. When I heard about *Abraham Lincoln: Vampire Hunter* by the same author, I was at first a little apprehensive, but I still ordered it because I do like Seth Grahame-Smith style and sense of horror. Tongue in cheek and not too gory. Since Tim Burton is involved in the movie, reading the book became a must for me. I have to say I adore anything Tim Burton. But I digress. The book starts with a little bit about the author and how he came to read the secret diaries of Abraham Lincoln's life and his vocation to rid America of vampires. I won't go into details as I don't want to spoil the readers enjoyment. The book is well written, you get an insight to Abraham Lincoln and the times he lived in. You can see throughout the story how this remarkable man was shaped by loses, by meeting certain people, by events but most of by love for "his" country. As a non-American I have read some about the civil war, but Abraham Lincoln never really struck me as a person who was all that interesting. (being a politician and all). It took me no time to read this book, I found it a

fascinating way of seeing history unfold through the eyes of Abraham Lincoln (as translated by Seth Grahame-Smith) I like that the author picked Abraham Lincoln as the Buffy the Vampire-slayer of the 1800's. Somehow it just fits. It works. And it works well.
