Customer Reviews

Received as advertised with no damages. Good study material for preparing for the RMA test BUT it does not have an answer key to validate the learners answers, you have to rely on the textbook and hope you found the right page.

Did not come with correct access codes. They had to be obtained from my professor. Once you get the information it is a great resource.

Missing a few chapters but it said it may have missing pages so it came the way it was described!!

Great packaging, great price for it being brand new, got here so fast. Very pleased!!

Cheaper than my bookstore. came quickly with no pages missing. great product

I am not please with my order because many pages are missing

great book.. i just meant to order the textbook
