Biostatistics: The Bare Essentials

Synopsis

This new edition of the book will be produced in two versions. The textbook will include a CD-Rom with two videotaped lectures by the authors. This book translates biostatistics in the health sciences literature with clarity and irreverence. Students and practitioners alike, applaud Biostatistics as the practical guide that exposes them to every statistical test they may encounter, with careful conceptual explanations and a minimum of algebra.

Customer Reviews

The best intro statistics book there is (p = 0.001).

I really like reading this book. With their approach, is very easy to understand all the concepts. The side notes makes studying biostatistics enjoyable. I recommend it.

It is an excellent book! Every graduate student in the health sector should have it as a reference.

This book is surprisingly lighthearted and a very easy read!

Must buy. When you finish this book, you will reach to PhD level. Believe me.
