Beyond Ecstasy (Beyond, Book 8)

Synopsis

The next-to-last book in the bestselling BEYOND series...The O'Kanes have a reputation for working hard and playing harder--except for Hawk. He joined the gang with one goal: to ensure his family's survival through the impending war with Eden. It's been years since he had the luxury of wanting anything for himself. Now, he wants Jeni. From the first moment he saw her, he's been obsessed with making her his. Not for a night--forever. Jeni's been lusting after the former smuggler for months, but he keeps shutting her down. She's almost given up on getting him in her bed when he offers her the last thing she ever expected--a collar. Accepting it means belonging to him, body and soul. It's a reckless gamble, but Jeni can't resist the chance to slip under Hawk's armor. The only thing more shocking than the dark, dangerous pleasure they discover is how right it feels. But falling in love is even more reckless when forever is far from guaranteed. Because they aren't just at war, they're out of time--and every breath could be their last.

Customer Reviews

I was sent a digital ARC of this book in exchange for an honest review. Anyone who knows me knows I am a big fan of Kit Rocha's work. I was lucky enough to have won a copy of the first installment in the "Beyond" series, and I was hooked from there, this book was no different. However, people who know me also know that I have been getting a tad bit tired of the predictable formula for the book. I don't blame the authors necessarily. It's a popular, tried and true formula that keeps readers coming back. But it does tend to get a little redundant. Around book three I noticed the pattern, then it started showing up in the novellas, then they started making less and less sense. These are O'Kane women. They're known throughout the entire world of the novels as being badass, take no prisoner kind of girls. Why do all these men keep insisting on trying to fight their battles? Now this book was a little different in the set up, but still. I understand this is dystopia, the world is exploding around them, but these characters can't communicate through 90% of the story and I don't see how that can create any sort of stability in their relationships. And it seems like that's important to these characters. That even if they're feisty and snarky, they pick their partner and stick it out until the end. It also seems like the relationships are getting more and more accelerated. At the end of "Beyond Shame" Jas and Noelle weren't saying they loved each other. They knew they did, they said they loved things about each other, but they never said the words "I love you", which was understandable. For all intents and purposes, they had just met. Dallas and Lex had been building for a decade, so their relationship was anything but rushed.
